

Lake County School District #7

Healthy and Safe Schools Plan

Adopted October 2017 Draft Plan
Modified/Updated: December 29, 2016
Modified/Updated:

This *Healthy and Safe Schools Plan* was developed by Lake County School District to meet the requirements of OAR 581-022-2223.

The plan was developed in September 2016 and was adopted by the Klamath County School District Board of Directors during their November 2016 meeting.

1. Responsible Person

OAR 581-022-2223(5)(a) states that the Healthy and Safe Schools Plan must include the position within the school district's or public charter school's administration responsible for maintaining and implementing the Healthy and Safe Schools Plan.

The person responsible for maintaining and implementing the Healthy and Safe Schools Plan is:

Name: Will Cahill
Position: Lake County School District #7 Superintendent
Contact information: 541-851-8768
cahillw@lakeview.k12.or.us

2. List of Buildings

OAR 581-022-2223(5)(b) states that the Healthy and Safe Schools Plan must include a list of all facilities that are included in the Healthy and Safe Schools Plan.

Lake County School District #7 Building/Facilities Covered Under This Plan

<u>Facility</u>	<u>Address</u>
Lakeview High School	906 South 3 rd Street – Lakeview, OR. 97630
Daly Middle School	220 South H Street – Lakeview, OR. 97630
Fremont Elementary	514 South H Street – Lakeview, OR. 97630
Arthur D. Hay Elementary	500 South I Street – Lakeview, OR. 97630
Union School	92398 Water Users Lane – Lakeview, OR. 97630
District #7 Office	1341 South 1 st Street – Lakeview, OR. 97630

DRAFT

3. Radon

a) *ORAR 581-022-2223(5)(c) states that the Healthy and Safe Schools Plan must include a plan to test for elevated levels of radon as required under ORS 332.167* LCSD #7 has adopted the Oregon School Boards Association (OSBA) model plan. The plan is available for public review at the Lake County School District #7 website: <http://www.lakeview.k12.or.us/index.php>

b) Lake County School District developed and implemented their radon testing plan using the sample plan provided by the Oregon School Boards Association (OSBA). The Lake County School District plan referenced the Oregon Health Authority – Public Health Division as a resource. This resource can be viewed at the following link:

https://public.health.oregon.gov/HealthyEnvironments/HealthyNeighborhoods/RadonGas/Documents/ORv1FINAL-pubs_Testing%20for%20Elevated%20Radon%20in%20Oregon%20Schools%202016.pdf

4. Lead in Drinking water

ORAR 581-022-2223(5)(d) states that the Healthy and Safe Schools Plan must include a plan to test for and reduce exposure to lead in water used for drinking or food preparation. If the district, education service district, or public charter school does conduct lead testing of drinking water, an Oregon Health Authority accredited lab must be used for all testing.

The Oregon Department of Education and the Oregon Health Authority recommend that all school districts and childcare facilities test for lead in school water and take corrective action if lead levels are elevated.

In developing a plan to test for and reduce exposure to lead in water used for drinking or food preparation, the following components are recommended by the Oregon Department of Education and the Oregon Health Authority:

1. **Identify sources of lead:** *Schools and childcare facilities should test all taps used for drinking or food preparation in the building to identify any lead problems. Follow the Environmental Protection Agency's 3 T's Revised Technical Guidance to ensure that samples for lead are collected properly and from the right places. Use an OHA-accredited drinking water laboratory to analyze samples for lead.*
2. **Stop access:** *Prevent access to water taps that have more than 20 parts per billion (ppb) of lead. This should include shutting off taps, covering water fountains, and providing bottled water to students and staff members.*
3. **Communicate:** *Make results from tests for lead in water available to students, families, and the community as quickly as possible.*
4. **Mitigate and correct:** *Replace the sources of lead in building plumbing. Again, EPA 3T's Guidance should be followed.*

5. **Ongoing Monitoring:** Testing will be done every five years or on an as needed basis. All testing will be in compliance with Oregon Health Authority guidelines.

The EPA's 3Ts technical guidance is available here:

https://www.epa.gov/sites/production/files/201509/documents/toolkit_leadschools_guide_3ts_leadschools.pdf

6. For the summary of water testing for lead and the Union school well, the plans are on file at Lake County school District # 7 and available at this website:

<http://www.lakeview.k12.or.us/index.php>

5. Lead Paint

OR 581-022-2223(5)(e) states that the Healthy and Safe Schools Plan must include a plan to reduce exposure to lead paint that includes the following compliance with the United States Environmental Protection Agency's Renovation, Repair and Painting Program Rule.

The Renovation, Repair and Painting Program Rule requires that individuals and firms conducting renovation, repair and painting projects on pre-1978 homes and child-occupied facilities (child care and schools) be certified to follow lead-safe work practices. For more information on this rule, you can visit the following website:

<https://public.health.oregon.gov/HealthyEnvironments/HealthyNeighborhoods/LeadPoisoning/ChildCareSchools/Pages/RulesforRenovating.aspx>

The **Summary of the Lake County School District # 7 Lead based paint testing plan** is at this website link: <http://www.lakeview.k12.or.us/index.php>

6. Integrated Pest Management

OR 581-022-2223(5)(f) states that the Healthy and Safe Schools Plan must include a plan to implement integrated pest management (IPM) practices as required under ORS 634.700 through 634.750.

The Oregon State University School IPM Program has created two model plans to assist districts. However, a school governing body may adopt any integrated pest management plan that complies with the requirements of ORS 634.700 through 634.750.

Additional information on Integrated Pest Management can be found at the following web link:

<http://www.oregon.gov/ODA/shared/Documents/Publications/PesticidesPARC/PesticidesIPMInSchools.pdf>

Lake County School District has adopted an Integrated Pest Management Plan as required by ORS 634.700 through 634.750. Community members can access a copy of the IPM plan at: <http://www.lakeview.k12.or.us/index.php>

7. Communication

OAR 581-022-2223(5)(g) states that the Healthy and Safe Schools Plan must include a plan to communicate results for all tests required under the Healthy and Safe Schools Plan that includes the following:

- *The school district will make all test results available to the public within five business days of receiving the results;*
- *The school district will make the results available to the public by posting the results on the school district website: <http://www.lakeview.k12.or.us/index.php> In addition, notice of the results will be sent over the email system, and making the results available in hardcopy at the main administration office; and*
- *The school district will provide detailed information explaining the test results.*
- *A separate Communication Plan is posted on the website: <http://www.lakeview.k12.or.us/staff/index.php>*
