"Preparing Today For A Successful Tomorrow"

RE: **STUDENT INSURANCE**

Dear Parents and/or Guardians:

May I take this opportunity to welcome you and your student(s) to the new school year and also to answer some of the questions you may have regarding the district's insurance coverage.

The school district does not carry a general medical coverage policy which pays medical expenses if a student is injured accidentally during school time. For this reason, parents/guardians are urged to make sure their private insurance carrier covers their students if they are accidentally injured at school.

If you do not have adequate coverage, you may wish to consider applying for an individual student accident benefit plan. Insurance brochures which describe various plan options and fees are now available in the school offices. This insurance is provided by an independent company which is not connected to any insurance policy the school district holds.

Your school district takes reasonable precautions to protect the personal safety of each individual. However, if your student is involved in an accident in school, the teacher and principal should be notified immediately. The principal will assist you in filing a claim with the district's insurance agent of record if you feel that your child's accident was due to negligence on the part of the school district.

I would also remind you that the school district's insurance programs do not cover personal items which may be lost, stolen, or vandalized. Students are reminded not to bring or leave valuables in school buildings.

Evidence of some type of medical or accident insurance is required before a student can participate in school sponsored athletic programs.

If you have any other questions about the district's insurance, please feel free to call me at 947-3347.

Sincerely,

Will Cahill
Superintendent
